### Ministry of Health and Medical Services

PO Box 349, Honiara, Solomon Islands

Tel: (677) 20830

Fax: (677) 24243

17 December 2016

#### **Supplementary information to Travel advisory for travelers arriving in Solomon Islands: Proof of measles vaccination**

Further to the travel advisory the Ministry of Health and Medical Services (MHMS) of the Solomon Islands Government (SIG) issued on 13 December 2019, this supplementary information concerns point 4 of the advisory which states that:

*"Non-Solomon Islanders arriving from measles affected countries (including transit through these countries) should carry a certified proof of measles containing vaccination received 2 weeks prior to the arrival date and if it is not produced, they will not be allowed to board at the departing country. Non-Solomon Islanders arriving from measles affected countries (including transit through these countries), who fail to produce the certificate of vaccination in Solomon Islands will be deported. This advisory becomes effective from 28 December 2019."*

For the purposes of entry into the Solomon Islands, the proof of vaccination will be in the form of

1. A vaccine Card (yellow card) or other documentation that lists the Measles vaccine as having been administered at any date prior to the 15 days stipulated in the travel advisory or in childhood.

Or

2. A medical certificate from a recognized medical practitioner/hospital that states that a traveler's blood test confirms the presence of Measles antibodies or that the test is reactive for Measles, which means that the traveler is protected, in lieu of a vaccination record.

**Issued**

Dr Gregory Jilini  
Undersecretary Health Care, MHMS

**Concurred**

Ms. Pauline McNeil  
Permanent Secretary, MHMS

#### **Supplemental information to MHMS advisory for Civil Aviation, Ports authority Airlines and Shipping companies serving the Solomon Islands.**

For the purposes of entry into the Solomon Islands, the proof of vaccination will be in the form of any of the following:

1. Either a vaccine Card (yellow card) or other documentation that list the Measles vaccine as having been administered at any date prior to the 15 days stipulated in the advisory
2. Either a medical certificate or a letter from a recognized medical practitioner/hospital that states that a traveler's blood test confirms the presence of Measles antibodies or that the test is reactive for Measles, which means that the traveler is protected, in lieu of a vaccination record.

#### **For the purpose of assisting airlines and travellers to verify measles vaccination records:**

Table 1. has a list of common Measles containing vaccines in different languages and

Table 2. has a list of brand names that may appear on a vaccination record from different parts of the world.

Table 1: Table of Measles containing Vaccines in different languages

English	Bosnian	Croatian	Polish	Romanian	Russian	Serbian	Slovak	Ukrainian
