

Grant Assistance for Grass-Roots Human Security Projects
Handing Over Ceremony of
‘The Project for Construction of Boys’ Dormitory for St. Joseph’ s Moli Catholic Secondary School’

On 9th December, 2020, a Handing Over Ceremony for ‘The Project for Construction of Boys’ Dormitory for St. Joseph’ s Moli Catholic Secondary School’ was held in North-West District of Choiseul Province. The ceremony was attended by approximately 200 people including school representatives.

The Government of Japan supported St. Joseph’ s Moli Catholic Secondary School through grant assistance amounting to US\$86,419 (SBD\$701,722) to build a double-story dormitory (4 bedrooms, 1 housemaster’ s room with 3 bathrooms). This project aims to solve an overcrowding issue at the boys’ dormitory due to increased number of students. It will provide more comfortable dormitory life and better learning environment for the students.

The principal said in her remarks, ‘To receive such a wonderful gift from a foreign country is a blessing for the community, Choiseul Province and Solomon Islands. ’

The dormitory will be well maintained by the community so that this project will benefit more children for many years to come.
