What has the Embassy of Japan in Solomon Islands done in Development Field?

Based on the three different financial modalities, we have done a variety of development assistances in Solomon Islands.

1

Grant Assistance for Grass-Roots Human Security Projects (GGP)

Small-scale projects (approx. SBD 1 mil.) to directly impact livelihoods of Solomon Islanders, in collaboration with national/international NGOs and provincial governments

2

Economic and Social Development Programme

Projects to acquire equipment, or facilities as bilateral arrangements with the Government of Solomon Islands

3

Grant Assistance through International Organizations

Projects to acquire equipment and develop facilities in collaboration with international organizations such as UN agencies
